

# Fundamentally different fleet safety and performance

## Get the context you need with undisputed video clarity and powerful processing from Driver.i®.

Our unique approach of analyzing 100% of driving time provides you with deep insight into what happens when events occur for a more realistic view of your fleet's safety and risk profile.

### Advocate for your drivers

- Defend and protect drivers and your services with video evidence.
- Utilize the normalized, continuously updated GreenZone® Score to coach, reward and recognize drivers.

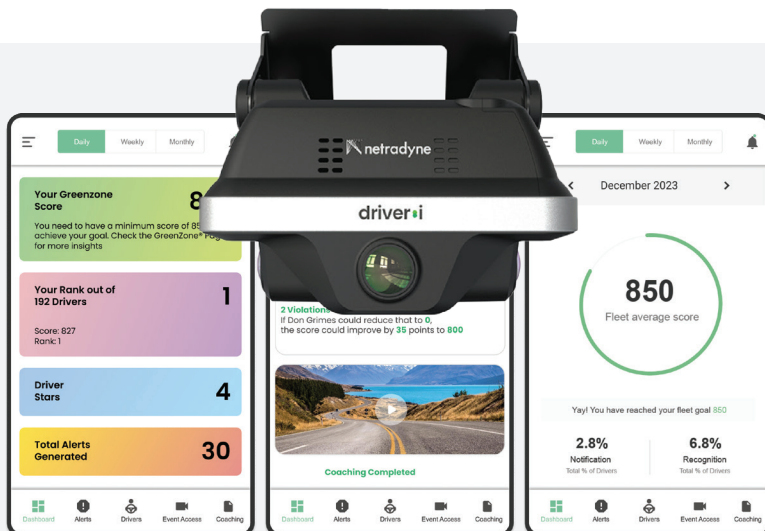

### Reduce claims and insurance costs

- Accurate, timely and effective in-cab alerts to help drivers correct unsafe behavior as they drive.
- Complete coverage with crystal-clear road, driver-facing, left and right views from a single device.

### Maximize routes and work hours

- One device and platform to effortlessly reduce operational costs.
- Enhance efficiency by effectively managing driver productivity.

## Driver.i® App

- Make tasks more engaging and foster competition with a clear path to progress and improvement.
- Drivers can review their performance data and benchmark themselves against their peers and the overall fleet goal.
